

FILEQUEST

ADVANCED COLOUR-CODED SYSTEM

Supplied by Fischer Services International Pty Ltd

FILING & STORAGE SYSTEMS

Flipper Door Cabinets

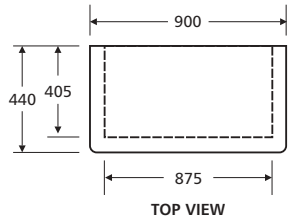

- Fully welded, including each level, to offer the strongest cabinet available in the market
- Designed for high density lateral shelf filing and also for A4 binders
- Up to 60% space saving compared to conventional storage cabinets
- Easy access and visibility of the files for rapid retrieval and refiling
- Locking system that allows you to secure those levels that you want locked, while at the same time having access to levels that do not need to be locked
- Adjustable levelling feet
- Up to 17% more space efficient than any other type of lateral cabinet such as Tambour or Receding Door cabinets
- The doors are metal for strength and security and can be used as a workshelf

Flipper Door Cabinets

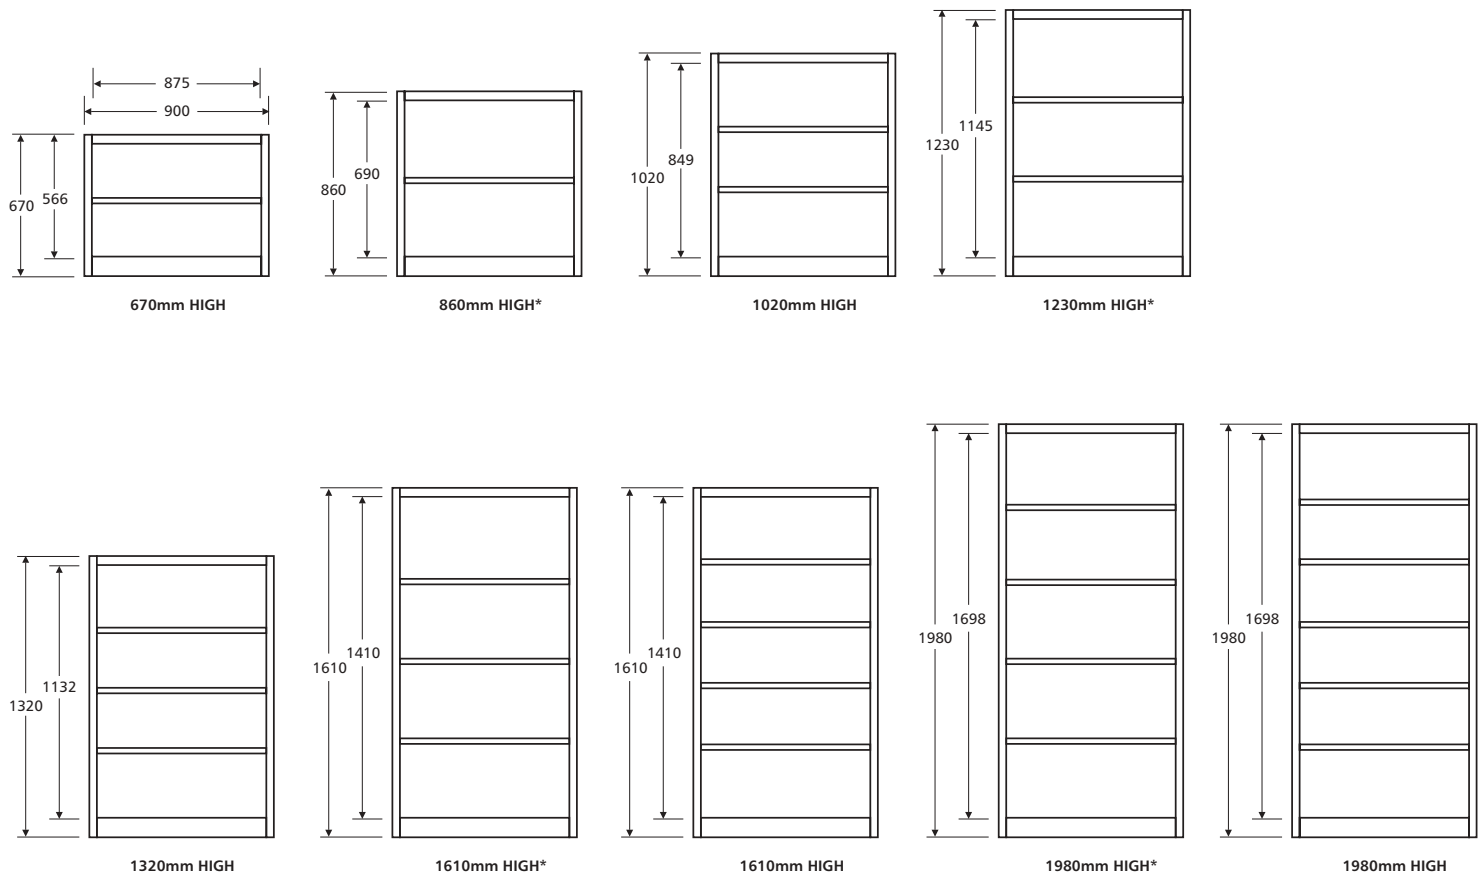

900mm wide, with standard and extra large* compartment sizes.
When determining lineal metres of storage for cabinets, please use the table supplied as a guide only. For accurate capacity calculations contact our sales staff.

LINEAL METRES OF STORAGE

Flipper Door Cabinet Heights	Levels of Storage	Lineal Metres of Storage
670	2	1.75
860*	2	1.75
1020	3	2.625
1230*	3	2.625
1320	4	3.50
1610*	4	3.50
1610	5	4.375
1980*	5	4.375
1980	6	5.25

To calculate: Lineal Metres of Storage per Cabinet = No. of storage levels x internal shelf widths

LEVELS OF FILING / STORAGE

Model	670mm HIGH	860mm HIGH*	1020mm HIGH	1230mm HIGH*	1320mm HIGH	1610mm HIGH*	1610mm HIGH	1980mm HIGH*	1980mm HIGH
Slotted Shelf (Lateral Shelf Files)	2	2	3	3	4	4	5	5	6
Slotted Shelf (Lever Arch Files) A4 Size	-	2	-	3	-	4	-	5	-

* Extra large compartment size Flipper Door Cabinets.

All measurements are nominal. All dimensions are in mm.
